

# OnCall Connect: Pregnancy and Post-Partum

## FACTS:

- Digital OB Support program
- Goal: to provide digitally enabled care to pregnant women to improve engagement and improve the care to the mother and baby
- Augmentation of the in person care team
- 24/7 connectivity to dedicated digital care team via GetWell Loop application
- Dedicated clinical team of RNs and APPs. Patients will have continuous and regular engagement with RNs through-out the program
- Ability to schedule virtual visits with APPs as needed or requested by the patient
- BP cuff, scale and fetal Doppler will be delivered to the patient for use through-out the program
- Integrated Social Determinants of Health assessment and referral process
- Support through-out pregnancy and up to 6 weeks post partum
